

**If you're proud of your stock,  
only the best protection will do.**

## Superior protection against ALL clostridial diseases.

Covexin® 10 is the clostridial vaccine of choice for farmers who breed superior quality animals or farm intensively for high level production.

A breakthrough in clostridial vaccination, Covexin 10 includes 10 key clostridial pathogens. It provides unsurpassed coverage against clostridial diseases by combining the most relevant clostridial pathogens with the latest vaccine production technologies. Covexin 10 is a superior product that protects valuable stock and addresses the needs of both cattle and sheep farmers.
