

NIL MEAT WITHHOLDING MAGNUM

NO DELAY IN GETTING LAMBS AWAY

DON'T LET YOUR FLY TREATMENT WITHHOLD PERIOD COME BETWEEN YOU AND YOUR PROFITS.

Lamb prices are on the rise, so you don't want to miss any opportunity to get them at their peak. And when some fly treatments have a meat withholding period of over 35 days – there's a big risk you could miss out.

MAGNUM is the only IGR pour-on with a nil meat withholding period. Plus it is rainfast, so it can be used on wet sheep. MAGNUM prevents flystrike for a minimum of 8 weeks and provides 20 weeks lice control. With MAGNUM, you can get your stock away with no delay.

Registered pursuant to the ACVM Act 1997, No: A7704. MAGNUM is a registered trademark. Schering-Plough Animal Health, 33 Whakatiki Street, Upper Hutt 5140. Phone 0800 800 543. FLY-480-2009.
