FINADYNE® TRANSDERMAL

World leading technology

Innovative transdermal route and pre-calibrated packaging helps ensure the right dose is given every time

- Consistent efficacy – proven for a rapid reduction in fever in cattle¹
- Uniquely designed for rapid absorption into the bloodstream

Fast Acting

Finadyne Transdermal goes to work quickly:

Reaches max concentration in just 2 hours²

Anti-pyretic effect demonstrated in just 4 hours³

- Quick, efficient administration – supports less stress for the vet, farmer and animal

- Time efficiency – convenient, ready to use pack
- Red-coloured solution – easy to see treated animals
- 6 month shelf life once opened

- Needle-free – easier administration and no injection site lesions

Dosage: 1ml/15kg

Nil milk withhold.

21 day meat withhold.

Available in 100ml, 250ml, 1000ml pack sizes
