

SAFETY DATA SHEET

Mastiplan[®] LC

Page 1 of 4

Section 1: Identification of the Substance and Supplier

Product name	Mastiplan LC Oily suspension containing 300 mg cephapirin (as sodium salt) and 20mg prednisolone.
Recommended use	Antibiotic for broad spectrum treatment of clinical mastitis in lactating cows
Company details	MSD Animal Health, 33 Whakatiki Street, Upper Hutt Phone: 0800 800 543 Fax: 0800 808 100 Website: www.msd-animal-health.co.nz Hours: 8 am – 5 pm, Mon – Fri
Emergency telephone	0800 764 766 (0800 POISON) 24 hours human health 0800 243 622 (0800 CHEMCALL) 24 hours
Date of preparation	September 2017

Section 2: Hazards Identification

Hazard classifications	6.5B, 6.8B, 6.8C
Priority identifiers	WARNING
Secondary identifier	6.5B May cause an allergic skin reaction 6.8B Suspected of damaging fertility or the unborn child 6.8C May cause harm to breast-fed children
Equivalent GHS class/category	Skin sensitization – Category 1 Reproductive toxicity – Category 2 Reproductive toxicity – Effects on or via lactation
Risk & Safety Phrases	R43 Sensitisation by skin contact R62 Possible risk of impaired fertility R63 Possible risk of harm to the unborn child R64 May cause harm to breast feed babies

Section 3: Composition/Information on Ingredients

Chemical name	CAS number	Concentration
Cefapirin sodium	24356-60-3	4%
Prednisolone	50-24-8	0.25%
Arachis oil (Peanut oil)	8002-03-7	>60%

Mastiplan[®] LC

Section 4: First Aid Measures

Necessary first aid measures	<p>Cephalosporins may cause hypersensitivity (allergy) following injection, inhalation, ingestion or skin contact. Do not handle this product if you know you are sensitised, or if you have been advised not to work with such preparations. Handle this product with great care to avoid exposure.</p> <p>SKIN CONTACT In case of skin contact, while wearing protective gloves, carefully remove any contaminated clothing, including shoes, and wash skin thoroughly with soap and water. If irritation or symptoms occur or persist, consult a doctor. Swelling of the face, lips or eyes, or difficulty breathing are more serious symptoms and require urgent medical attention.</p> <p>EYE CONTACT In case of eye contact, immediately rinse eyes thoroughly with plenty of water. If wearing contact lenses, remove only after initial rinse, and continue rinsing eyes for at least 15 minutes. If irritation occurs or persists, consult a doctor.</p> <p>INGESTION Rinse mouth and drink a glass of water. Do not induce vomiting unless under the direction of a qualified medical professional or National Poisons Centre. If symptoms persist, consult a doctor.</p> <p>INHALATION Remove to fresh air and provide oxygen if necessary. If any trouble breathing, get immediate medical attention. Administer artificial respiration if breathing has ceased. If irritation or symptoms occur or persist, consult a doctor.</p>
Required instructions	For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor.
Notes for medical personnel	<p>Cephalosporins may cause hypersensitivity reactions including anaphylaxis, skin rashes, fever, or skin rashes in susceptible individuals. Contact dermatitis developed in nurses exposed to a similar cephalosporin, and another cephalosporin may have cause a photosensitization reaction.</p> <p>Ingestion of cephalosporins may produce gastrointestinal effects including nausea, vomiting, or diarrhoea. Other effects that may occur include headache, confusion, restlessness, agitation, ringing in the ears, muscle incoordination, double vision, decreased white blood cells, platelets, and red blood cell counts, or kidney effects.</p>

Section 5: Fire Fighting Measures

Type of hazard	Not classified as flammable
Fire hazard properties	Fire decomposition products from this product may be toxic if inhaled.
Regulatory requirements	Not applicable
Extinguishing media and methods	Carbon dioxide (CO ₂), extinguishing powder or water spray
Hazchem code	None allocated
Recommended protective clothing	Wear chemical resistant gloves, facemask or goggles.

Section 6: Accidental Release Measures

Emergency procedures	Wear chemical resistant gloves and overalls, facemask or goggles. Prevent further spillage. Adsorb spilled product and place in sealable container for disposal. Wash down affected area with water plus detergent. Absorb and collect washings and place in the same sealable container for disposal. Seek advice from the local authority regarding disposal.
-----------------------------	---

SAFETY DATA SHEET

Mastiplan[®] LC

Section 7: Handling and Storage

Precautions for safe handling	Avoid contact with skin, eyes, and mucosa. Keep containers adequately sealed during material transfer, transport, or when not in use. See Section 8 (Exposure Controls) for additional guidance.
Regulatory requirements	Emergency Plan required where quantities greater than 1000kg are present.
Handling practices	Avoid contact with skin. Keep containers adequately sealed during material transfer, transport, or when not in use.
Approved handlers	Not required.
Conditions for safe storage	Store in original container in a cool, dry, ventilated place away from direct heat or direct sunlight. Keep container sealed when not in use. Keep out of reach of children.
Store site requirements	Store below 25°C. Do NOT refrigerate or freeze.
Packaging	Schedule 4

Section 8: Exposure Control/Personal Protection

Workplace exposure standards	No WES is set for this substance at this time.
Application in the workplace	Ensure adequate ventilation. Keep container sealed when not in use.
Exposure standards outside the workplace	Not applicable
Personal protection	Wear chemical resistant gloves, facemask or goggles.

Section 9: Physical and Chemical Properties

Appearance	Off white/yellow to pink homogeneous oily suspension
Boiling Point	Not available
Melting/Softening point	No specific data. Liquid at normal temperatures
Vapour Pressure	Not determined
Specific Gravity	Not available
Solubility (H ₂ O)	Insoluble
Percent Volatiles	Not determined
Evaporation Rate	Not determined

Section 10: Stability and Reactivity

Stability of the substance	Stable under normal conditions.
Conditions to avoid	Extremes of temperature. Exposure to light.
Material to avoid	Avoid food products
Hazardous decomposition products	No dangerous decomposition is expected if used according to manufacturer's specifications.

SAFETY DATA SHEET

Mastiplan[®] LC

Section 11: Toxicological Information

Acute effects for individual ingredients only

TEL	Not applicable.
-----	-----------------

Chronic/long term effects for individual ingredients only

Peanut Oil was found to be a moderate irritant on the skin of rabbits at 100 mg/24 hour exposure. There is some support for the suggestions that peanut allergy in an infant can result from exposure in utero or during lactation. Studies in mice, rabbits, hamsters and rats, showed that prednisolone caused malformations including cleft palate with administered parenterally.

Section 12: Environmental Information

Effects for individual ingredients only.

EEL	Not applicable.
-----	-----------------

Section 13: Disposal Considerations

Disposal information	Disposal Dispose of unused contents in a suitable landfill. Container Disposal Dispose of empty syringe by burying in a suitable landfill.
Reference	Current version of NZS 8409 Management of Agrichemicals

Section 14: Transport Information

Relevant information	Not classified as a dangerous good for transport
-----------------------------	--

Section 15: Regulatory Information

Regulatory status	HSNO Approval Code: HSR100757 For a full listing of controls see www.epa.govt.nz ACVM registration number: A11329. For conditions of registration see www.foodsafety.govt.nz RESTRICTED VETERINARY MEDICINE
HSNO and ACVM controls	Emergency Plan: 1000 kg

Section 16: Other Information

Additional information	Mastiplan is a registered trademark.
