

SAFETY DATA SHEET

Scanda®

Page 1 of 5

Section 1: Identification of the Substance and Supplier

Product name	Scanda Liquid containing 65 - 95 g/litre levamisole hydrochloride and 30 - 60 g/litre oxfendazole
Recommended use	Oral drench for sheep and cattle
Company details	Coopers, 33 Whakatiki Street, Upper Hutt Phone: 0800 800 543 Fax: 0800 808 100 Website: www.coopersonline.co.nz Hours: 8 am – 5 pm, Mon – Fri
Emergency telephone	0800 764 766 (0800 POISON) 24 hours human health 0800 243 622 (0800 CHEMCALL) 24 hours
Date of preparation	September 2011

Section 2: Hazards Identification

Hazard classifications	6.1E, 6.4A, 6.5B, 6.6B, 6.8B, 6.9B, 9.1B
Priority identifiers	WARNING – keep out of reach of children. Ecotoxic
Secondary identifier	6.1E May be harmful if swallowed 6.4A May cause eye irritation 6.5B May cause an allergic skin reaction 6.6B Suspected of causing genetic defects 6.8B Suspected of damaging fertility or the unborn child from repeated oral exposure 6.9B May cause damage to the liver, blood and the haematopoietic systems through prolonged or repeated oral exposure at high doses 9.1B Toxic to aquatic organisms with long lasting effects
Risk & Safety Phrases	R22 Harmful if swallowed R48/22 Harmful danger of serious damage to health by prolonged exposure if swallowed R63 Possible risk of harm to the unborn child R51 Toxic to aquatic organisms

Section 3: Composition/Information on Ingredients

Chemical name	CAS number	Concentration
Levamisole Hydrochloride	16595-80-5	8%
Oxfendazole	53716-50-0	4.53%
Sorbic Acid NF	110-44-1	<1%
Citric Acid	77-92-9	<10%

Section 4: First Aid Measures

Necessary first aid measures

INHALATION Remove to fresh air and provide oxygen if breathing is difficult. If any trouble breathing, get immediate medical attention. Administer artificial respiration if breathing has ceased. If irritation or symptoms occur or persist, consult a doctor.

SKIN CONTACT While wearing protective gloves, carefully remove any contaminated clothing, including shoes, and wash skin thoroughly with soap and water. If irritation or symptoms occur or persist, consult a doctor.

EYE CONTACT Immediately rinse eyes thoroughly with plenty of water. If wearing contact lenses, remove only after initial rinse, and continue rinsing eyes for at least 15 minutes. If irritation occurs or persists, consult a doctor.

INGESTION Rinse mouth and drink a glass of water. Do not induce vomiting unless under the direction of a qualified medical professional or National Poisons Centre. If symptoms persist, consult a doctor.

Required instructions

For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor.

Notes for medical personnel

The information presented below pertains to the following individual ingredients, and not to the mixture(s). Only information about the ingredients that are expected to contribute significantly to the potential health hazard profile of the formulation(s) are presented:

Levamisole is an anthelmintic and immunostimulant. Acute exposure to levamisole may cause nausea, vomiting, diarrhoea, abdominal pain, dizziness, or headache. Chronic exposure may cause hypersensitivity reactions including fever, flu-like syndrome, arthralgia, muscle pain, skin rashes, or cutaneous vasculitis, CNS effects including headache, insomnia, dizziness, or convulsions, haematological abnormalities including agranulocytosis, leucopenia, or thrombocytopenia, or gastrointestinal effects including abnormal taste in the mouth.

Oxfendazole is not-irritating, not-sensitizing, and practically not-toxic acutely. Based on animal studies, oxfendazole may cause liver, bone marrow, testes, gastrointestinal tract, and blood cell effects following chronic exposure.

Workplace facilities

Emergency showers and eyewashes may be warranted depending on quantity and type of use.

Section 5: Fire Fighting Measures

Type of hazard

Not classified as flammable

Fire hazard properties

Not applicable

Regulatory requirements

Not applicable

Extinguishing media and methods

Carbon dioxide (CO₂), extinguishing powder or water spray

Hazchem code

3Z (Contain spillage)

Recommended protective clothing

Wear full protective clothing and self-contained breathing apparatus (SCBA).

SAFETY DATA SHEET

Scanda®

Page 3 of 5

Section 6: Accidental Release Measures

Emergency procedures Wear chemical resistant gloves and overalls, facemask or goggles. Prevent further spillage. Adsorb spilled product and place in sealable container for disposal. Wash down affected area with water plus detergent. Absorb and collect washings and place in the same sealable container for disposal. Seek advice from the local authority regarding disposal. Avoid contamination of any water source or soil with product or empty container.

Section 7: Handling and Storage

Precautions for safe handling Avoid contact with skin, eyes, and mucosa. Keep containers adequately sealed during material transfer, transport, or when not in use. See Section 8 (Exposure Controls) for additional guidance.

Regulatory requirements Signage required where quantities greater than 1000L are present. Emergency Plan required where quantities greater than 1000L are present.

Handling practices Avoid contact with skin. Keep containers adequately sealed during material transfer, transport, or when not in use.

Approved handlers Not required.

Conditions for safe storage Store in original container in a cool, dry, ventilated place away from direct heat or direct sunlight. Keep container sealed when not in use. Keep out of reach of children.

Store site requirements Store in a cool, dry place at room temperature (i.e. 5 to 25 °C)

Packaging PG III

Section 8: Exposure Control/Personal Protection

Workplace exposure standards Propylene glycol TWA (vapour & particulates) 150ppm (474mg/m³)

Application in the workplace Ensure adequate ventilation. Keep container sealed when not in use.

Exposure standards outside the workplace No TEL is set for this substance at this time
No EEL is set for this substance at this time

Personal protection Wear chemical resistant gloves, facemask or goggles.

Engineering controls The health hazard risks of handling this material are dependent on many factors, including physical form, duration and frequency of process or task, and effectiveness of engineering controls. Site-specific risk assessments should be conducted to determine the feasibility and the appropriateness of all exposure control measures. Exposure controls for normal operating or routine procedures follow a tiered strategy. Engineering controls are the preferred means of long-term or permanent exposure control. If engineering controls are not feasible, appropriate use of personal protective equipment (PPE) may be considered as alternative control measures. Exposure controls for non-routine operations must be evaluated and addressed as part of the site-specific risk assessment.

SAFETY DATA SHEET

Scanda®

Page 4 of 5

Section 9: Physical and Chemical Properties

Appearance	White suspension.
Boiling Point	100°C
Melting/Softening point	Not applicable
Vapour Pressure	Not determined
Specific Gravity	1.055 at 20°C
Solubility (H ₂ O)	Emulsifiable
Percent Volatiles	Not determined
Evaporation Rate	Not determined

Section 10: Stability and Reactivity

Stability of the substance	Stable under normal conditions.
Conditions to avoid	Avoid high temperatures
Material to avoid	Avoid food products
Hazardous decomposition products	Carbon oxides (CO _x), Sulphur oxides (SO _x), and Nitrogen oxides (NO _x).

Section 11: Toxicological Information

Acute effects for individual ingredients only

ORAL	Levamisole: LD50 200mg/kg bw (rat/mouse) [ERMA] Citric acid: LD50 5000mg/kg bw (mouse) [IUCRID 2000]
DERMAL	Sorbic Acid: Species: rabbit, Result: irritating, EC classification.: irritating Type: Patch-Test, Species: human, Result: sensitizing
TEL	No TEL is set for this substance at this time.

Chronic/long term effects for individual ingredients only

Citric acid: Anecdotal evidence suggests irritating to skin pH at 1.9% is 2.2 therefore aqueous solution is strongly acidic [ME]

Levamisole: Mutagenic effects -levamisole induced chromosome gaps and breaks in human lymphocytes in vitro and in vivo after volunteers were given 2 mg/kg. No chromosomal damage occurred in mice given 2.5 mg/kg subcutaneously Levamisole: ADI of 0-6 ug/kg based on LOAEL of 1.25 mg/kg/day haemolytic effects in dogs, safety factor of 200

Oxfendazole: NOEL 20mg/kg/bw/day for reproductive effects [ERMANZ]

Oxfendazole: Hepatotoxicity/ Alimentary system (liver) effects were observed in rats and mice. The NOEL was 10 mg/kg in the diet, equal to 0.7 mg/kg/bw/day in males and 0.9 mg/kg/bw/day in females [INCHEM]

SAFETY DATA SHEET

Scanda®

Page 5 of 5

Section 12: Environmental Information

Effects for individual ingredients only

AQUATIC	Oxfendazole: LC50 48-hr 0.52mg/L (Daphnia magna) [ERMA]
EEL	No EEL is set for this substance at this time.

Section 13: Disposal Considerations

Disposal information	Disposal Dispose of unused product through Agrecovery Chemicals. Avoid contamination of any water source or the environment with product or empty container. Container Disposal Triple rinse empty container, puncture and recycle through Agrecovery. Do NOT burn.
Reference	Current version of NZS 8409 Management of Agrichemicals

Section 14: Transport Information

Relevant information	UN3082 ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Oxfendazole) Marine Pollutant Class 9 PG III Limited quantities: 5L Maximum quantity for own agricultural use: 1000L
Other requirements	Refer to Haznote.

Section 15: Regulatory Information

Regulatory status	HSNO Approval Code: HSR001846. For a full listing of controls see www.epa.govt.nz ACVM registration number: A7130. For conditions of registration see www.foodsafety.govt.nz
HSNO and ACVM controls	Signage: 1000 Litres Emergency Plan: 1000 Litres

Section 16: Other Information

Additional information	Scanda is a registered trademark.
